

Muhammad Hassaan Saleh

WordPress Developer | React | REST APIs | Elementor | Front-End Development

+92 312 736 2825 | hassaansaleh56@gmail.com | Portfolio: hassaan-portfolio-tawny.vercel.app | GitHub: github.com/saleh56758

PROFESSIONAL SUMMARY

WordPress Developer with hands-on experience building, customizing, and maintaining client websites using WordPress, Elementor, Gutenberg, HTML, CSS, and JavaScript. Comfortable handling theme customization, plugin troubleshooting, responsive layouts, and ongoing site maintenance across real client projects in different industries. Additional development experience with React, REST API integration, Python (Django, Flask), C#/.NET, MySQL, PostgreSQL, SQLite, and Git/GitHub.

TECHNICAL SKILLS

WordPress: WordPress, Elementor, Gutenberg, Custom Theme Development, Theme Customization, Plugin Management, Troubleshooting, Website Maintenance

Front-End: HTML5, CSS3, JavaScript, React, Responsive Web Design, Cross-Browser Compatibility

Back-End: Python, Django, Flask, ASP.NET, C#, REST API Development & Integration

Tools: Git, GitHub, Web Scraping, Tkinter

Databases: MySQL, PostgreSQL, SQLite

PROFESSIONAL EXPERIENCE

WordPress Developer — Global Web Daddy

Dec 2025 – May 2026

Contract / Project-Based

- Built and maintained WordPress websites for multiple clients across different industries, ensuring responsive design and cross-browser compatibility.
- Developed custom Elementor and Gutenberg page layouts aligned with client brand guidelines and UX requirements.
- Performed routine plugin, theme, and WordPress core updates, resolving bugs and conflicts to keep sites stable.
- Diagnosed and resolved plugin and theme conflicts to maintain site functionality.
- Communicated directly with clients to gather requirements, present deliverables, and apply feedback across revision cycles.
