

Muhammad Hassaan Saleh

WordPress Developer & Full-Stack Web Developer

+92 312 736 2825 | hassaansaleh56@gmail.com | hassaan-portfolio-tawny.vercel.app | github.com/saleh56758

PROFESSIONAL SUMMARY

WordPress Developer and Full-Stack Web Enthusiast with hands-on experience building, customizing, and maintaining production websites for international clients. Proficient in custom theme development, Elementor/Gutenberg page building, and responsive UI/UX design. Backed by a strong foundation in HTML, CSS, JavaScript, Flask, Django, .NET (C#), web scraping, and Git. Delivers clean, client-ready web solutions with reliable communication and attention to detail.

EXPERIENCE

WordPress Developer · Global Web Daddy

Dec 2025 – May 2026

- Built and maintained WordPress websites for multiple clients across different industries, ensuring responsive design and cross-browser compatibility.
- Developed custom Elementor and Gutenberg page layouts aligned with client brand guidelines and UX best practices.
- Performed routine plugin, theme, and core updates; resolved bugs and conflicts to keep sites stable.
- Communicated directly with clients to gather requirements, present deliverables, and apply feedback efficiently.

Note: Contract/project-based role. Open to full-time positions.
